

Gunther Valentine @ EMS 25- 29 January, 2018

📅 Published: 05 May 2017

Gunther Valentine is an experimental electronic composer currently living in northern rural Maine. He has been making music as a solo musician as Gunther Valentine and Gxnt Valentine and has lived all over the US.

Gunther has been primarily exploring digital synthesis with outmoded MIDI rackmount synthesizers and effects processors. Currently transitioning to computer music via processing field recordings and generative synthesis. He creates alienating but emotional textural soundscapes that instinctively morph from ambient and abstract to chaotic and harsh.

He has a small media imprint called Anathema Archive and has releases with various underground American labels such as No Rent Records, Bánh Mì Verlag, and Primitive Languages.
