

Heejin Jang @ EMS 12-18 March, 2018

📅 Published: 03 October 2017

Heejin Jang (b.1985) is a multidisciplinary artist based in Seoul. Jang has lived, exhibited, and performed around the globe.

In her live sound performance, Heejin presents a set of improvised computer music. She arranges and synthesizes sonic spaces that draw from the everyday and the trivial, re-forming them into phenomenal situations of meditation or digitally induced panic. Distorting ambient, field recordings, and sound samples from the Internet, Jang creates a reverberating force that gets one lost in the echoes of invisible itineraries to the outer world.

Heejin's 4th album, *In the Heretic's Room*, is due for release Spring 2018 via Rat Route.
