

Kasia Justka @ EMS 6-19 July, 2018

📅 Published: 27 November 2017

Kasia Justka - independent multimedia artist and live performer, experimenting with electricity through synthesis of sound, image, light and space.

Crossing the borders and characteristics of media during tense, multimedia actions inspecting new aesthetic ways and technical possibilities.

Through the clash between silence and noise, flash and darkness translating the initial chaos into personal order. Experience the physical aspects of the signal.

Her performances widen the narrative perception, by evoking dynamics and forms of primitive entropy and stimulating imagination and sensitivity.

She has performed and exhibited her work in international galleries, festivals and theaters, and also runs an independent Audio Visual Experimental lab: Mono Shop
