

Daniel Evans @ EMS 8-12 July, 2019

📅 Published: 03 September 2018

peb is the moniker of electronic musician Daniel Evans. Their work is concerned with alternative harmonies, meandering pulses and extreme acoustic precision, where sound is seen as an inextricable part of space. Their research is in computational models of intonation and tuning, offering new horizons that would be unrealisable in the physical world. Their live performances involve the creation immersive sonic environments. They also play in a duo with London based musician hmurd.
