

# Joseph Baader @ EMS 8-14 July, 2019

📅 Published: 06 September 2018

Joseph Baader studies at the Institute for Music and Media Düsseldorf and the Sibelius Academy Helsinki. He works as a composer, media artist and VJ.

As part of the collectives Hochmut (Düsseldorf) and Potential Difference (Helsinki), he organises jams or club nights and performs as a musician and VJ.

He's intrigued by finding new ways to transform structures, surfaces and stories of different physical objects into music. Therefore he uses simple techniques, which are all based on contact and movement: Scratching, squeezing, rubbing, hitting...

At EMS he wants to adopt and process these techniques on ephemeral objects like language or thoughts and compose a piece out of the results.
