

Therese Aune & Julia Giertz @ EMS 23-25 September, 2019

📅 Published: 11 March 2019

Therese Aune (<https://www.thereasaune.com>) (NO) makes experimental pop music combining acoustic and electronic elements with a sonorous voice. As a part of her master's program focusing on composition and music production at the RMC (the Rhythmic Music Conservatory in Copenhagen), she will spend the autumn of 2019 working on composing music for an interdisciplinary art project.

At EMS she will be working together with sound artist Julia Giertz (<https://juliagiertz.info>) to get a better insight into the world of immersive audio and how to work with multiple speaker setups.
