Troels Abrahamsen @ EMS 12-17 September, 2023

 Published: 16 December 2022

In his almost 20-year career, [Troels \(https://www.instagram.com/troels_abrahamsen/\)](https://www.instagram.com/troels_abrahamsen/) has published and performed both under his own name and under various pseudonyms.

Recently he released the EP Polyptych20/Circumvention on his own label BLCK. They were followed up by a series of singles, most recently the atmospheric long-player Kill The Buddha.

In the newer material, the various genres and techniques he has dealt with over the past two decades as a performing musician and artist are merged. Troels is currently working on a new release which is scheduled for release in the fall of 2023.

At EMS Troels will be collaborating with Michael Peter Olsen. They are friends from numerous collaborations over the past 10 years and are getting together to prepare some new collaborative music for their upcoming Danish tour.
