 Published: 04 December 2023

M is an experimental pop artist who designs new interfaces for musical expression with video game technology. This underlies a live set full of morphing symbols, flashing lights, and wild dancing.

M's debut EP, NEW ME, (which was finished at EMS) is out now on the Berlin-based label Unguarded! M's work has been featured at venues such as Transmediale, Berliner Festspiel, and Ars Electronica.

They hold an MA in Sound in New Media from Finland's Aalto University and have done residencies with Fabrica Research Center, Amplify Berlin, and Elektronmusikstudion EMS Stockholm.
