

Andrea Neumann & Sabine Ercklentz @ EMS 12-22 July

 Published: 20 February 2015

EMS welcomes Sabine and Andrea back! The electro-acoustic duo Ercklentz Neumann (Sabine Ercklentz (<http://femmes-savantes.net/les-femmes-savantes/sabine-ercklentz>) and Andrea Neumann (<http://femmes-savantes.net/les-femmes-savantes/andrea-neumann>)) has since the late 90s researched the poetry in sound and noise. Experimental instrumental sounds in conjunction with analogue electronics meet everyday noises under the microscope in extreme electronic amplification. The momentum of sounds and machines is thereby consciously used to generate new structures.

Sabine Ercklentz and Andrea Neumann will continue their work on "buchla beats" which they started during their last residency at EMS in August 2014. The generated material will be included into their duo music as well as into both of their solo projects
