

Rashad Becker @ EMS 20-29 Feb!

📅 Published: 14 December 2015

Rashad Becker was born in 1970 owing to unprotected coition. He was admitted to the fortress europe at age 12. He grew up to be a certified emergency medical technician and ornamental blacksmith but went on dedicating his professional life to less usefull things.

Since about 2000 he eats miso for it's delicious taste and proclaimed health benefits. Since about 2002 he started loosing his hair. Currently his live sets evolve around the angle of `traditional music of notional species`, a semi-abstract synthetic narrative that seems appealing to a surprisingly wide audience.
