

Roman Hiele & Michelle Woods @ EMS 19-29 January

 Published: 15 January 2015

ROMI is an evolving library based on electroacoustic sounds and their influence on the sensations of eating. How can ROMI manipulate the tastes and sensations of eating foods by using sound in a musical way?

Roman Hiele (BE), musician and producer of electronic music, and Michelle Woods (UK), chef and designer, will work together at EMS to focus on the creation of sounds for their taste-sounds library.
