

Yan Jun @ EMS 31 Aug - 5 Sept!

📅 Published: 28 August 2014

We are happy to have Yan Jun (<http://www.yanjun.org>) at EMS for a couple of days in September! Yan is a musician born in Lanzhou in 1973, based in Beijing. He plays improvised music and makes field recordings. His works involve electronics, feedback, site-specific performance/installation, noise and organizing. His feedback improvisation set is always following the unstable relationship between microphones, speakers, the space and his own body movement.

He has toured in US, Australia, Europe and Asia, and often play in audiences' living rooms using the specific space and objects as instruments (Living Room Tour project). His Micro Feedback project is a headphone hypnotizing for small amount of audience.
