

Projects at Elektronmusikstudion 2014

AiR Frederikke Hoffmeier back @ EMS 15 Oct - 5 Nov!

 Published: 03 October 2014

An AIR-programme grant from Nordic Culture Point (<http://www.kulturkontaktNord.org/lang-en/nordic-culture-point>) has made it possible for EMS to invite Frederikke to work at EMS in 2014.

This is the last part of her residency, and we will miss her!

Frederikke Hoffmeier (<http://pucemary.blogspot.se>) (1989) is a Copenhagen based music composer. Best known for releasing and performing under the name Puce Mary, she has made a name for herself within fields of modern industrial and experimental noise music. Despite a still rather young project, the discography is vast with releases on labels like Posh Isolation, Freak Animal and Ideal Recordings and it portrays her work methods to be many and diverse, from sound art pieces, minimal synth compositions to straight forward industrial music. During 2014 she has performed throughout Europe, Russia and America.
