

# Projects at Elektronmusikstudion 2019

## ARKO: Hoonmin Park @ EMS 22 July - 19 August, 2019

 Published: 20 October 2018

Hoonmin Park is a composer and drummer, and is studying electro-acoustic music composition at Korea National University of Arts. He is working on creating an ideal structure as a sound, exploring various works and techniques between macro and micro, changing present and past. The structure has some images, and sometimes the external structure is emphasized or the internal images are highlighted depending on the work. He wants to create works that logical methods of creation underlie on it's basis but can be sensuous and intuitive.
