## Irene Cassarini @ EMS 2017

---

 Published: 30 March 2017

Irene Cassarini is a composer and sound designer from Italy, known under the name of Guenter Råler.

Her music is an exploration between the fields of synthesis and beat-making off the time grid. She follows a free-form sonic flux of sharp sounds, where the atmospheres convey distorted impressions.

She has been working and recording at EMS during 2017, while she attended the Electroacoustic Music composition course (<https://www.kmh.se/in-english/education/programmes-and-courses/master-programmes/composition---electroacoustic-music.html>)

at the Royal College of Music (Kungliga Musikhögskolan, KMH).
