

# Projects at Elektronmusikstudion 2021

## Mophradat: Shakeeb Abu Hamdan @ EMS 2-11 November, 2021

 Published: 02 March 2020

Shakeeb Abu Hamdan is an artist and musician living in Beirut, Lebanon. He was actively involved in the UK's DIY/experimental music scenes over the years, playing in various experimental rock/weird punk bands and running Ouse, a recording studio and label.

Recent recordings and performances have centred around the use of drums, collected metals, bells and cymbals which he augments and amplifies with surface transducers, microphones, pitch and modulation effects, cheap looping megaphones and other lo-tech electronics.

Shakeeb Abu Hamdan's residency is kindly made possible by Mophradat
