ERASMUS+: Otso Aho Internship @ EMS 16 January - 10 April, 2019

 Published: 26 May 2018

We welcome Otso Aho as an Intern at EMS. He is a last year student at the Helsinki Vocational College (<https://www.hel.fi/ammattillinen/fi/koulutukset/koulutukset-tutkinnot/koulutukset-perustutkinnot/audiovisuaalisen-viestinnan-osaamisala>) Film Sound department. He is an avid sound, nature and philosophy lover.

At EMS he wants to hone his skills, work with artists and have interesting conversations. He is currently particularly interested in live sound design, how sound manifests in different mediums, multichannel compositions and in ways to bend field recordings and samples to the atoms.
