

Projects at Elektronmusikstudion 2017

Stephen McEvoy @ EMS 2017

 Published: 15 March 2017

Stephen McEvoy (recording under the name tuuun (<https://flufrecs.bandcamp.com/album/finestexport>)) is an Irish artist working with sound. His work, which draws upon techno, noise and rave, is a playful investigation of the potentialities of minimalism and improvisation. He is interested in the social possibilities that music offers, both in dealing with traumatic past histories, and in presenting new Utopian ways forward.

During his time in Stockholm, he will be working at EMS periodically.
