Willem Twee: Julian Edwardes @ EMS 29 November - 5 December, 2021

 Published: 21 July 2020

Julian Edwardes (<https://julianedwardes.nl>) (UK/NL '79) is a trained visual artist with a background in Fine Art; he studied at AKV St Joost in Breda and at the Sandberg Institute Amsterdam.

His compositions are akin to his experience in relating to three-dimensional work in a space. Sonic entities are playfully sculpted and positioned in landscapes of shifting symphonic drone. Form, language, identity and existence are assayed within a compositional framework pullulated from a modular synthesizer, utilizing unstable systems and disrupted resonant bodies.

He resided at the Willem Twee Studios 's-Hertogenbosch, is connected to production house Intro in Situ Maastricht and performs improvised sets on a regular basis. Presently Julian lives and works in Breda, the Netherlands.

His residency is kindly made possible with the support of Willem Twee Studios (<https://www.willem-twee.nl/agenda/studios>) (NL).
